ROLEX**
Oyster Perpetual Date
■ Probably the most recognised wristwatch in the world, the classic Rolex 'Automatic Date' is also the most copied. So to avoid looking like a fake, get involved in vintage. We like the gilt buttons on this piece. The 'perpetual' automatic winding mechanism gets its energy from the motion of the wearer's wrist. The Vintage Watch Company has a huge collection of models from 1925 - we love the 60s and 70s pieces.
